

Parking Lot Safety

**Parking lots are everywhere!
They are at the store, at school, and at the park.**

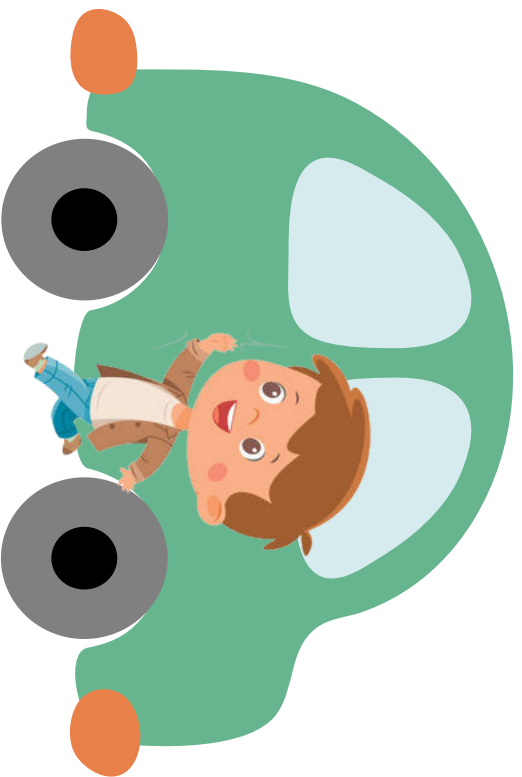

They can be very busy with cars and people. It is important to stay safe in parking lots.

The best way to stay safe is to hold an adult's hand at all times!

Always make sure you are close to whoever you came with. If they need to let go of your hand you can keep one hand on your car to let them know you are being safe!

Staying safe is so fun and makes your parents happy!
